

MATHS PARTY DAY

On Friday 7th July we will be holding our second Maths Party Day. The children will be having a Maths Puzzles and Games session during the day and are welcome to bring toys or games with a Maths link to play in school. The children will be completing a Maths and Art project and there will be Maths themed lunch. We are all looking forward to having another fun Maths day.

Below are links to resources you can use at home with your children. Have fun too!
