

Mrs. Stevens

Pupil Administrator

Mrs. Stevens' job involves counting envelopes to send letters and adding number of pupils in each class to check we have enough cartons of milk for all children. She also sends a report to the dairy of how many cartons have been consumed by the children in one month. Every day she looks at each class register and calculates how many children are having a school dinner so that the school cook knows how many dinners to prepare. She uses the numbers in the telephone to contact parents when necessary. She uses the keypad on her computer to input data and information into excel spreadsheets. She counts all the dinner, toast and milk money ready to take to the bank.
