

14th November 2022

Dear Parent/Carer,

PARENT GOVERNOR VACANCY

We have had 2 nominations for Parent Governor. Below are the statements they provided.

Victoria Kennedy

I am a Senior Lecturer in the Department of Geography and Environmental Science at Liverpool Hope University. In my role I focus on both teaching and research, which often involves using statistics and financial budgeting elements for forward planning. I chair a number of different committees such as Research Ethics, Research Committee as well as our Senior Management Team meetings on occasion.

I have direct responsibility for management and leadership in the Department by mentoring colleagues and my PHD student. I feel passionately about widening participation in education from primary education to higher education. I believe my skill set and knowledge would be beneficial as a Parent Governor, so that we can collectively achieve the best educational outcomes and high pastoral support for our children at Stockton Wood.

Collette McCauley

My daughter has recently joined the school in Reception Class, so I am keen to be a Parent Governor. I would like to play an active role in improving outcomes for children and the school. I am employed as a Solicitor and part of my day to day duties includes reviewing and advising upon policies and procedures so I am able to analyse information and ask relevant questions. I supervise a team so I am familiar with budgeting and assessing financial performance.

I am able to review data making changes where necessary should the statistics reflect the need for this. I work on a flexible basis so can attend meetings. I am really keen to learn how the school operates and hope I can contribute in some way to it's development.

Please complete the ballot form and return to school by Friday 2nd December 2022
