Liverpool Maths Party

Dear Parents

On **Friday 5th July** we will be holding our fourth Maths Party Day. The children will be participating in a range of puzzles and challenges throughout the day. This will include some activities to help develop their understanding of the different **forms** and **functions** of money, as well as the role money plays in our **communities** today. Pupils will then have the opportunity to design a coin or currency that is unique and inspired by what is special about our community. There will also be Maths themed lunch. We are all looking forward to having another fun Maths day.
