

# When have you used Maths today?

Mr. Wilson  
P.E. Teacher

Maths is used in lots of aspects of Sport and P.E. When he is keeping score, looking at differences, averages and picking teams, Mr. Wilson is using numbers. He also uses them for measuring speed, distance and height in athletics. He needs to know how to position equipment in the correct angle for optimum results. Maths is used when counting steps, creating shapes, sequences and patterns in dance and gymnastics.
