

Year Two

I went to the shop to buy a football. It was £75 but I only have £65 so I need 10 more.

Harvey

I went shopping and saw a backpack and purse for £18 and £17. I knew I could afford them because I had £133.

Lola

I had £5 and mum said I could have an ice cream for £1.50. I had a pound coin but I didn't have a 50p so I used two 20ps and a 10p.

Darcie

I knew I had 12 games for my DS but I could only find 10. So I knew I had two to find. They were in my sister's room.

Liam

When have you used Maths?
