Safer Internet Day – Tuesday, 9th February 2021

Dear Parents,

Safer Internet Day is such an important day to help children and grown ups to use the internet in a safe way. Please take part and share these activities with your family.

Key Stage 2: Years 3 and 4

Safer Internet Day 2021 will be celebrated in the UK with the theme:

An internet we trust: exploring reliability in the online world

We are going to look at how sometimes not all information on the internet is reliable and also, use the internet to check how to check whether something is or isn't accurate or true.

Task 1 Visit the [BBC Bitesize Should I Trust Everything...](https://www.bbc.co.uk/bitesize/topics/zd92fg8/articles/zt9thyc) section. Have a look at the information and watch the video on the page:

<https://www.bbc.co.uk/bitesize/topics/zd92fg8/articles/zt9thyc>

With an adult at home, think about the answers to the following questions. You don't need to write them down, but they will help you with Task 3.

- Why can websites be less reliable than books?
- How can you check if the information on a website is reliable? (There are a few different answers to this.)
- What does biased mean?

Task 2: Online Quiz

Watch this short video - <https://www.loom.com/share/7bd4bb89584b4a578343f3b46775807d> _ on how to use the quiz website Kahoot.

Then take part in this quiz, [Safe to Say](https://kahoot.it/challenge/0a1aa6ef-36e2-474d-99c1-f782712a265d) to check your knowledge of key words related to Online Safety and Internet reliability:

<https://kahoot.it/challenge/0a1aa6ef-36e2-474d-99c1-f782712a265d> 1610971980849

Task 3: Create an Internet Safety poster about the reliability of websites using the information you found out in Task 1. This can be done on paper, or you might want to use a free app such as [Pic Collage](#). (Pic collage only works on tablets or mobile phones, not computers.)

Yours sincerely,

S.E.Price (Head teacher)
