

September 2022

Dear KS1 and KS2,

In our Maths lessons, we use a programme called White Rose Maths to enhance our teaching and learning.

You can join in at home too and improve your Maths basic skills using an app called 1 Minute Maths.

1 Minute Maths is free to download.

You don't need a login or internet access to play, just download and off you go.

Challenge yourself for 1 minute every day and see if you can beat your previous score.

Attached to this letter is a 1 Minute Maths Wall Chart for you to record your progress.

If you choose to take part, bring your completed chart into school, we would love to share your progress and then we can give you a new chart.

You will be amazed at how much 1 minute a day can help to improve your Maths basic skills.

Have Fun exploring and don't forget to ask if you need any help!

Miss Aitken
